-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/31/05 has been entered.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 15, 18, and 20-21 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admitted prior art [Figure 1. Referred as The AAPA].

Regarding claim 15, the AAPA teaches:

an input unit arranged to input image data (see the scanner with device ID SA" shown in figure 1) having a plurality of color components (see page 2 first full paragraph); and

an embedding unit arranged to embed first information and second information in the image data as electronic watermark information (see SA, CA, and CB embedded into image shown in figure 1), the second information representing whether the first information is the latest information (see page 2 last paragraph),

wherein the first information specifies said apparatus (see ID SA and ID CA shown in figure 1).

Art Unit: 2627

Regarding claim 18, the AAPA further teaches binary data (see digital image in second full paragraph of page 2).

Regarding claims 20 and 21, these claims are also rejected for the same reasons as set forth in claim 15 above.

4. Claim 16 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:
The AAPA fails to teach or suggest the features as recited in claims 16 and 19.

5. Claims 1, and 4-6 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the AAPA does not teach or suggest the features as recited in claim.

Dependent claim 4 is also allowed for the same reasons as above.

Claims 5-6 are also allowed for the same reasons as set forth in claim 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy M. Dang whose telephone number is 571-272-7389. The examiner can normally be reached on Monday to Friday from 5:30AM to 2:00PM.

Art Unit: 2627

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Mancuso can be reached on 571-272-7695. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
